Vision & mission

WHAT SETS US APART

OUR VISION

With rising costs and increasing volumes, both the supply chain and our planet are under growing pressure. Sykono's vertical lift solutions enable transport to operate as efficiently and sustainably as possible, helping keep logistics costs under control while reducing the impact on the environment.

OUR MISSION

We develop innovative vertical lift solutions that make transport chains more efficient and sustainable, keeping logistics affordable while easing the burden on the planet. We do this within a work environment focused on continuous improvement and strong, long-term relationships.

1

In partnership with Palfinger Tail Lifts, we combine agile innovation with multinational reliability.

2

A strong standard range for each lift model without compromising on quality and reliability.

3

Tailor the lift exactly to your customers' needs with our extensive range of options.

4

Fully pre-assembled as standard, enabling fast and efficient bolt-on installation.

5

A compact and lightweight design concept engineered for smart integration and performance.

6

Equipped with the reliable Palfinger electronic control system for precision and control.

GOODS LIFT

The Sykono goods lift has been specially developed for trailer manufacturers whose customers are involved in supplying retail stores. With an exceptional lifting height, flexible engineering and customization, speed and efficiency, professional customer service, and low maintenance requirements. customers.

Thanks to its double-deck lifting capacity, your customers can save even more space and significantly reduce the number of transport movements. This not only improves productivity and efficiency but also benefits the environment. With a lifting capacity of up to 2000 KG, you can meet even the highest demands of your customers. In addition, the lift is space-saving and lightweight,

allowing you to carry more load without increasing the weight of the trailer. Sykono also offers the option to deliver the lift fully assembly-ready with high-quality welding. This means Sykono supplies the complete rear portal including doors, locks, bumper, and lighting. As a result, trailer manufacturers can save up to 20 hours of production time, enabling you to significantly shorten lead-

times and deliver faster to your customers. There are also various options available for the loading ramps, lighting, and safety guards. This allows you to ensure that the lift meets all specific safety and comfort requirements of your customers.

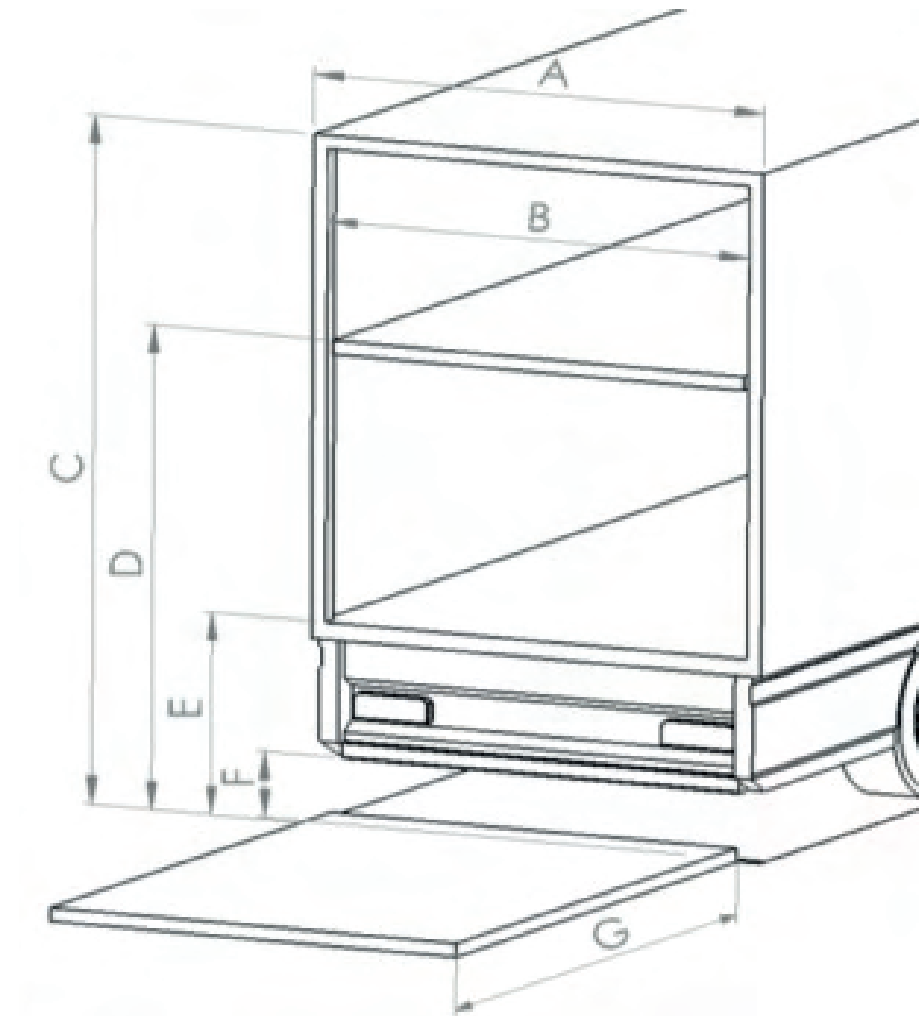

Lift solutions

PROFESSIONAL VEHICLE LIFTING SOLUTIONS

Dimensions	SGL 1500	SGL 2000
lifting capacities	1500 KG	2000 KG
A	2454 mm	2454 mm
B	2440 mm	2440 mm
C	4700 mm	4700 mm
