CONTAINER LIFT

Vision & mission

WHAT SETS US APART

OUR VISION

With rising costs and increasing volumes, both the supply chain and our planet are under growing pressure. Sykono's vertical lift solutions enable transport to operate as efficiently and sustainably as possible, helping keep logistics costs under control while reducing the impact on the environment.

OUR MISSION

We develop innovative vertical lift solutions that make transport chains more efficient and sustainable, keeping logistics affordable while easing the burden on the planet. We do this within a work environment focused on continuous improvement and strong, long-term relationships.

1

In partnership with Palfinger Tail Lifts, we combine agile innovation with multinational reliability.

2

A strong standard range for each lift model without compromising on quality and reliability.

3

Tailor the lift exactly to your customers' needs with our extensive range of options.

4

Fully pre-assembled as standard, enabling fast and efficient bolt-on installation.

5

A compact and lightweight design concept engineered for smart integration and performance.

6

Equipped with the reliable Palfinger electronic control system for precision and control.

2

Sykono Container Lift

CONTAINER LIFT

The Sykono Container Lift is purpose-built for flexible and efficient deployment in emergency and critical-response situations. Engineered for speed and exceptional reliability, it delivers dependable performance when it matters most. With lifting capacities of 1500 and 2000 kg, it provides a solution for every operational need.

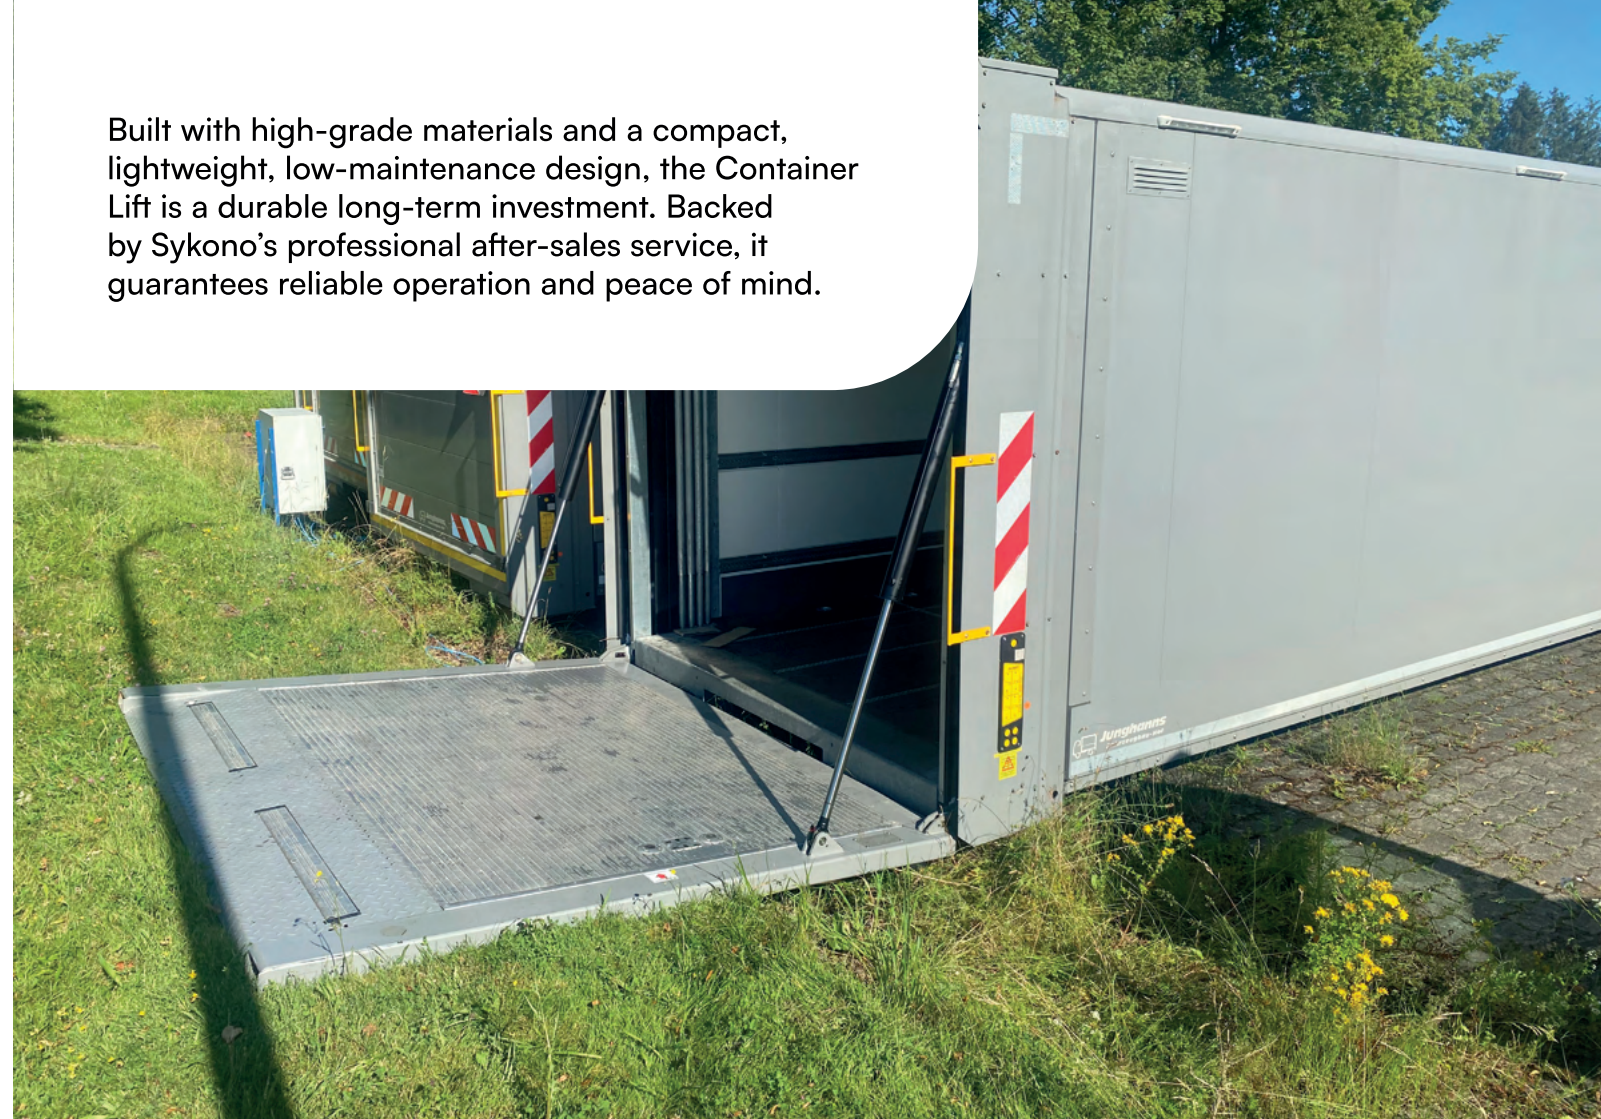

Designed with engineering flexibility in mind, the Container Lift allows for tailored customization. Whether adapting the lift to specific client requirements or developing a new configuration quickly and efficiently, it is the right choice for government and public-sector applications.

The standard model offers a cost-efficient solution for

common lifting needs, without compromising on quality or performance.

A wide range of options is available, including safety railings, various ramp configurations, and integrated lighting solutions. This ensures the lift can be configured to meet exact operational and regulatory requirements.

Built with high-grade materials and a compact, lightweight, low-maintenance design, the Container Lift is a durable long-term investment. Backed by Sykono's professional after-sales service, it guarantees reliable operation and peace of mind.

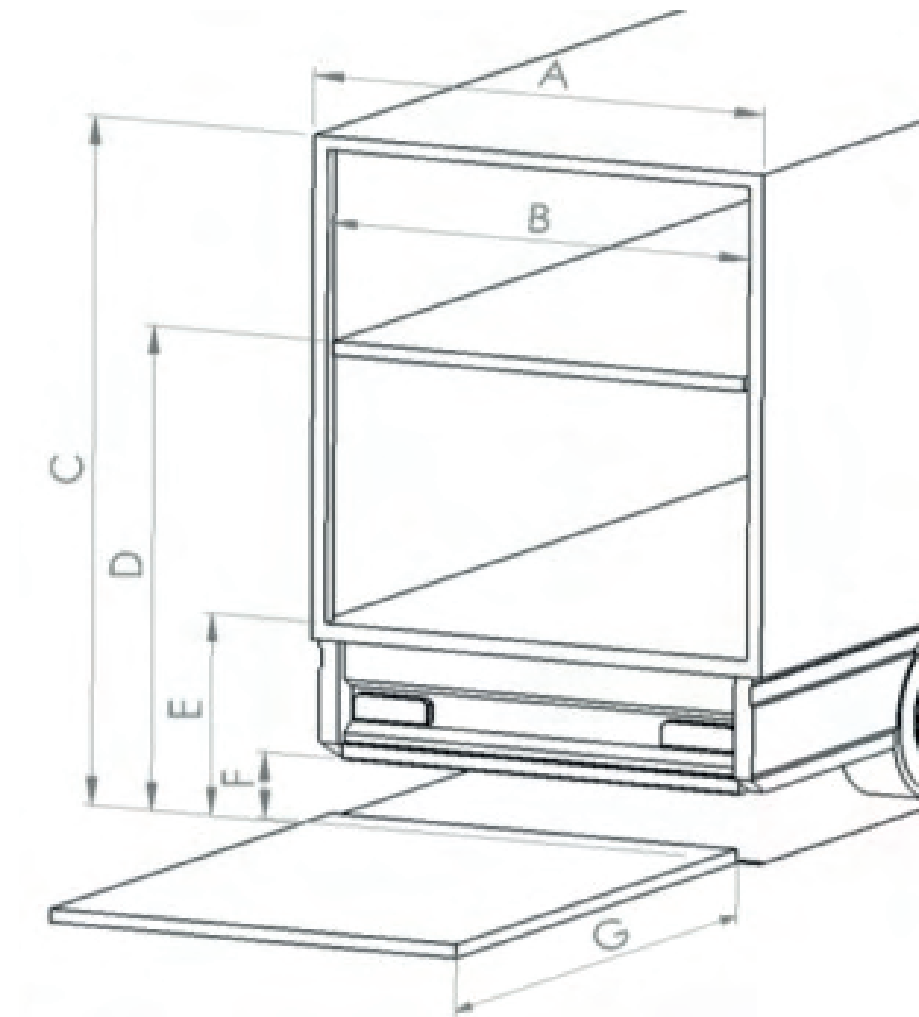

Lift solutions

PROFESSIONAL VEHICLE LIFTING SOLUTIONS

Dimensions	SML 1500	SML 2000	Custom solutions
Lifting capacities	1500 KG	2000 KG	2000 - 20000 KG
A	2550 mm	2550 mm	2400 - 2550 mm
B	2205 mm	2205 mm	2055 - 2205 mm
C	3780 mm	3780 mm	3500 - 4000 mm
D			
E	1600 mm	1600 mm	1350 - 1650 mm
F	1380 mm	1340 mm	1150 - 1450 mm
G	2100 mm	2100 mm	1850 - 2200 mm

- Specially designed for emergency and commercial vehicles
- Flexibility in technology and customization
- Cost-efficient standard solutions available
- Space-saving, lightweight, and low-maintenance design
- Sustainable investment for government trailer builders
- Professional after-sales service

OPTIONAL FEATURES

The Sykono Container Lift can be equipped with optional safety and performance features, including railings, ramp configurations, integrated lighting, and an emergency hand pump. Backed by professional after-sales support, it delivers reliable performance in critical situations.

Code Equipment

- B1 A pair of roll stops (AluStar type)
- B3 Flasing lights
- B6 Side panels
- B7 Sealing rubbers
- B19 Foot control
- B16 Carging cable with plug and socket

Code Equipment

- B18 Radio remote control (only with external power pack)
- B27 Anti-slip milling
- B28 Anti-slip coating
- B33 Hand pump
- C2 “P” safety gate
- C3 “A” safety gate

SYKONO SERVICE POSSIBILITIES

From custom engineering to ready-to-install systems and long-term support, Sykono delivers complete lift solutions. We combine smart design, efficient production, and expert guidance to ensure reliable performance and confident investment from day one.

Code Equipment

- D1 Vehicle preparation for lift installation
- D2 Installation by Sykono
- D3 Painting and finishing in a RAL color
- D4 Sykono engineering
- D5 Custom production
