Vision & mission

WHAT SETS US APART

OUR VISION

With rising costs and increasing volumes, both the supply chain and our planet are under growing pressure. Sykono's vertical lift solutions enable transport to operate as efficiently and sustainably as possible, helping keep logistics costs under control while reducing the impact on the environment.

OUR MISSION

We develop innovative vertical lift solutions that make transport chains more efficient and sustainable, keeping logistics affordable while easing the burden on the planet. We do this within a work environment focused on continuous improvement and strong, long-term relationships.

1

In partnership with Palfinger Tail Lifts, we combine agile innovation with multinational reliability.

2

A strong standard range for each lift model without compromising on quality and reliability.

3

Tailor the lift exactly to your customers' needs with our extensive range of options.

4

Fully pre-assembled as standard, enabling fast and efficient bolt-on installation.

5

A compact and lightweight design concept engineered for smart integration and performance.

6

Equipped with the reliable Palfinger electronic control system for precision and control.

A large, stylized white number '2' is positioned in the upper left corner of the page. It is set against a dark background that is part of a photograph of a livestock lift on a truck.

Sykono Livestock Lift

LIVESTOCK LIFT

The SPL is designed around safety, efficiency, and seamless integration. Its lightweight construction reduces overall vehicle weight while maintaining exceptional structural strength. The extra large platform ensures safe and stable loading, minimizing stress for both the operator and the livestock.

Thanks to its intelligent design concept, the lift optimizes available space without requiring major vehicle modifications. Installation is efficient and straightforward, with minimal adjustments needed for your lorry or trailer. Low maintenance requirements and a fail safe construction ensure reliable performance, even in demanding operating conditions.

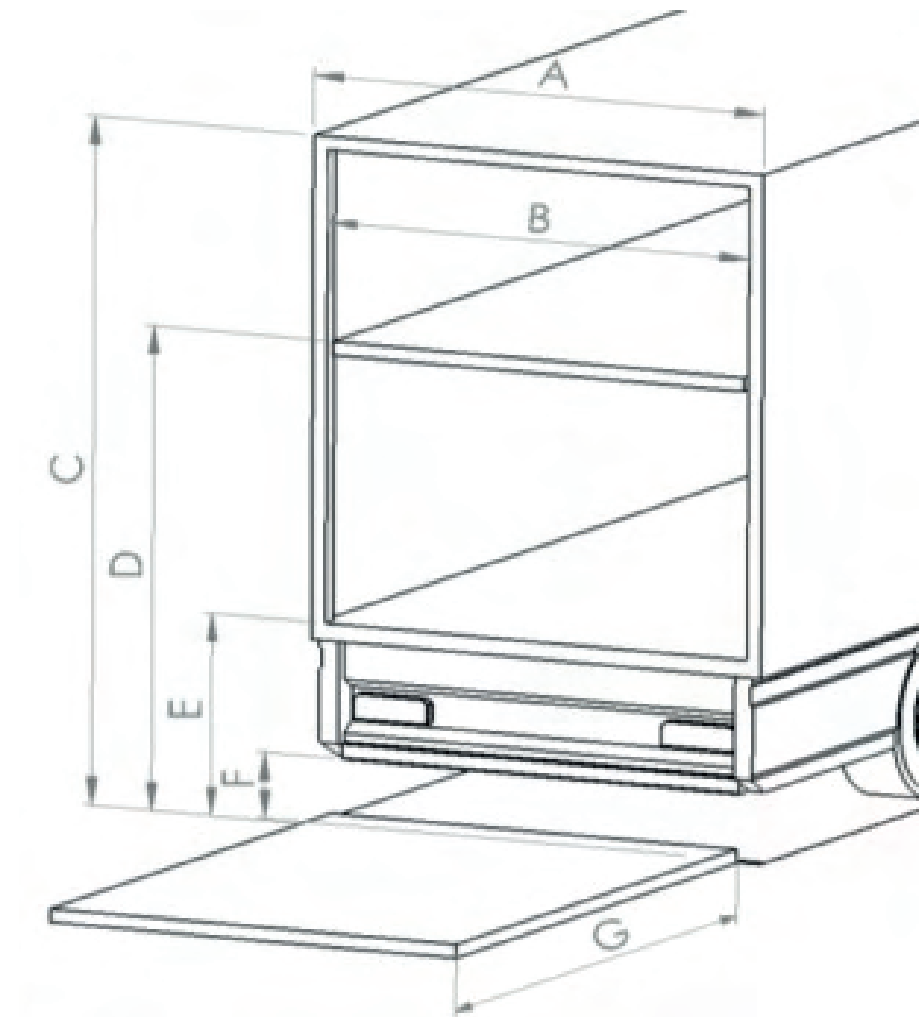

Lift solutions

PROFESSIONAL VEHICLE LIFTING SOLUTIONS

Dimensions	SPL 1200	SPL 1500
Lifting capacities	1200 KG	1500 KG
A (mm)	2500/2600	2500/2600
B (mm)	2160/2260	2150/2250
C	265 mm	265 mm
D	250 mm	250 mm
E	3550 mm	3550 mm
F	2445 mm	2445 mm
G	2840 mm	2840 mm

- Lightweight yet robust body construction
- Extra-large platform for stable and safe loading
- Minimal vehicle modifications required for installation
- Low maintenance intervals with fail-safe construction
- Smart design concept for optimal space utilization

Customization options

FEATURES

The Sykono Livestock Lift can be equipped with optional safety and performance features, including railings, ramp configurations, integrated lighting, and an emergency hand pump. Backed by professional after-sales support, it delivers reliable performance in critical situations.

Equipment

- Safety gates for secure livestock handling
- Platform-integrated weighing sensors for load monitoring
- Additional lighting solutions for improved visibility
- Configurable setup to match specific transport requirements
- Designed for seamless integration with your vehicle build

SYKONO SERVICE POSSIBILITIES

From custom engineering to ready-to-install systems and long-term support, Sykono delivers complete lift solutions. We combine smart design, efficient production, and expert guidance to ensure reliable performance and confident investment from day one.

Code Equipment

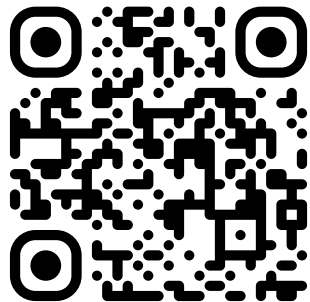

- D1 Vehicle preparation for lift installation
- D2 Installation by Sykono
- D3 Painting and finishing in a RAL color
- D4 Sykono engineering
- D5 Custom production
